We have carefully selected our partners for our **SUSTAINABLE WHOLE LAMB PROGRAM** to ensure an authentic, holistic and fully-integrated offering of delicious food to feel good about.

**North Star Sheep Farm** has a long and notable family history of raising sheep in Maine. Since before the turn of the 20th century, they have been providing breeding stock, meat lambs, and support to the sheep industry. It is an Animal Welfare Approved farm where the sheep are pasture-raised on acres of pristine, certified organic grass and never receive added hormones. NSSF is committed to heritage farming practices that allow them to harvest or recycle to the highest degree possible.

**Westminster Meats** is a state-of-the-art, USDA-approved processing plant in Vermont where they strictly follow humane treatment standards.

**Northeast Family Farms** provides source verified, locally-raised products in a manner that compliments your menu or retail store applications. Making use of whole animals is where our history is solidly rooted and partnered with 5th generation craft butchers at Dole & Bailey; the food hub and farm-gate for chefs throughout the Northeast since 1868.
